The Honorable Victor S. Burstein
Mayor of Albion
City Hall
Albion, Michigan 49224

Dear Major Burstein:

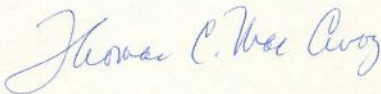

Please accept our warmest congratulations as Albion is named as one of the ten All American Cities.

It is great to see the country at large recognize what we have known for a long time -- that Albion is one of most progressive and industrious cities in the U. S. A.

I think it is particularly noteworthy that Albion has been able to pull its citizens together in a wide variety of constructive programs, and that Albion has been particularly successful in the improvement of social relationship between the races, and a steady improvement in the quality of life.

Corning Glass Works has always been proud to be located in Albion, Michigan -- our pride is even larger today.

Sincerely,

TCM/m
